Epic Name:	PIM Module Add Employee – personal details feature			

Description

The "New employee" section can be accessed in PIM module (go to PIM>> Add Employee). After the first name and the last name of a new employee are entered, a new page will appear. This is the page where personal details are entered for new employee, the page I will test in this project.

This area can be managed by an user with create, edit and delete permission and will be visible to Admin module.

This are will contain 3 section:

Personal details;

Custom field;

Add attachment.

Business requirements attached.
